Free online prenatal classes

Among the initiatives organized by the S. Orsola Polyclinic suspended due to COVID-19 outbreak, there are the prenatal classes. Prenatal and perinatal education aims increase awareness in women and couples about their role, to enhance their knowledge and skills, so that they can make informed choices. Considering the above, the obstetricians of the Obstetric unit arranged online prenatal classes so as to guarantee continuity of care to pregnant women and parents to be, who will be able to ask questions and clarify any doubt that may arise. The first edition involved 60 moms-to be and was articulated in different sessions.
